特點

Features

線跡樣式切換：以旋鈕快速切換2點・4點曲折縫線跡

Stitch pattern switch: zigzag pattern of 1-step and 3-step stitch can be quickly set by the switch button.

旋轉式挑線桿：在極低張力下也能有高品質且穩定的線跡

Rotary type thread take-up lever: It makes high quality and stable seam with low tension of the thread.

梭軸配合補償機構：旋梭在勾線時的左右位置均等，可防止跳線與斷線

Rotary hook shaft compensation mechanism: The right and left position are even when the rotary hook is forming a stitch, which prevents the stitch-skip and thread breaking.

微量抬壓腳裝置：對於彈性面料，壓腳可浮貼於面料上，減少面料起皺或損傷

Micro lifter: For elastic materials, the presser foot can softly press on the material to prevent slippage or damage.

內建繞線器：設置於機頭上方，使用方便

Built-in bobbin winder: It is equipped with machine on the top for easy use.

選配功能：可選配自動切線與電動抬壓腳功能，提高車縫效率

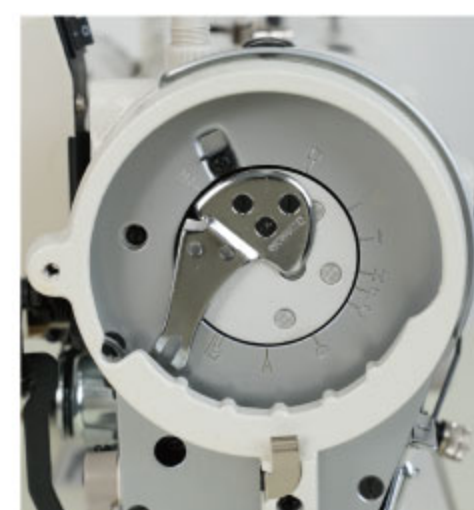

Optional functions: Auto thread trimmer and electric type presser foot lifter are optional for better sewing efficiency.
